Good readers have a large vocabulary.

Knowing lots of words helps children better understand what they read. You can help your children learn lots of words by:

- Having plenty of conversations. Take turns talking. It is important for you to ask questions and listen to what your children say in response.
- Read together! A lot!
- Make connections. Connect what you are reading in books to their lives. "Yes, Grandma has a black cat, too."
- Repetition. Children often love to read the same book over and over. This is a good thing as repeated readings help build vocabulary.

One way children learn vocabulary is from listening to stories.

They listen to understand what is being said, which helps them learn new words. Stories aren't just found in books. You can tell stories about your day, your memories from growing up, or something about your child's life. You can also use wordless picture books and make up a story together. With wordless books, you can develop imagination along with language and vocabulary skills. Make it fun! Having fun with words helps your child become more aware of words and eager to learn more.

You are your child's first teacher, and your home is where your child begins to learn.

Make your home a great place to learn. It doesn't take money to create special places where you and your child can talk, sing, read, write, play, and count. Here are a few ideas.

PLACES TO READ

Create a special space for your children to look at books. Have a comfortable chair or pillows and a small shelf or basket for favorite books. Make sure there's room for you and your child to sit together and that your child can reach books without needing help.

PLACES TO WRITE

Make it easy for your child to write throughout the day. Set up a space where your child can go on his or her own and use writing materials. Provide pencils, crayons, or markers of different sizes so your child can write with what is most comfortable. Use unlined paper.

PLACES TO PLAY

Play requires a little space, simple props, and some imagination and encouragement. You don't need special toys or expensive electronics. Provide props like large boxes, old clothes or costumes for dress up, empty food containers, and empty paper towel rolls. Play comes naturally to young children and is one of the primary ways they learn. Provide plenty of opportunities for your child to play.

Children's reading success in kindergarten and beyond begins with positive language and literacy experiences from the time they are infants.

- Young children have shorter attention spans. You can do activities for short bits of time throughout the day or whenever you have the chance.
- You can help your children learn in ways and at times that are best for them.
- Children learn best by doing—and they love doing things with YOU!

Listening to nursery rhymes and songs is an early literacy experience that helps children understand how language and stories work.

Recite rhymes and sing songs with children from the time they are infants. This helps them become aware of and then play with the sounds in the words. Many rhymes tell a story with a beginning, middle, and end. This shows children how stories work and that events happen in a sequence. Good readers understand that stories and books have a beginning, middle, and end. After reciting a rhyme or singing a song ask your child about the song. What happened at the beginning? What happened at the end?
