

# CRAFTS TO GO

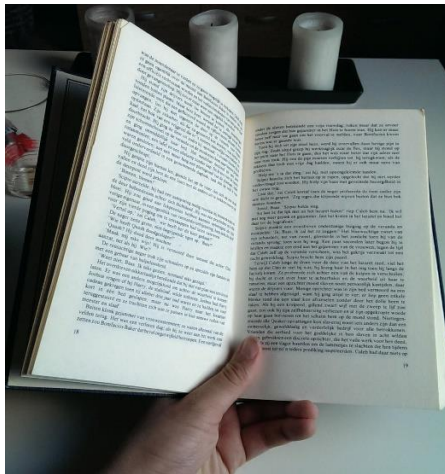

## Folded Book Art-Heart

**Materials included:** Hardcover Book, Ruler and Detailed Instructions

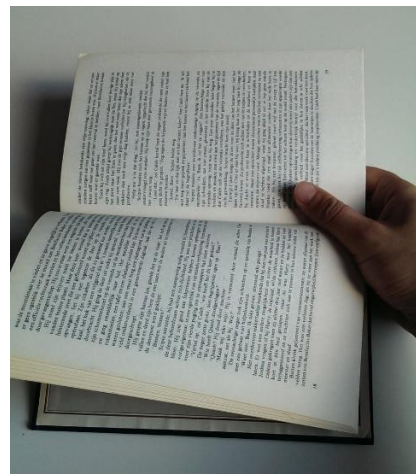

**Materials needed:** Pencil

### Instructions:

1. For this heart pattern we need to mark and fold 40 sheets of paper. The pattern is in centimeters (cm). Notice the ruler has cm markings.
2. To figure out where to start your design, take the total number of pages in the book and divide by 2. Take that number and subtract 20. This will be your starting point. (For example if the book has 388 pages / 2 = 194 minus 20 = 174)
3. My starting point was 174 (yours will be different). Add one page to get to an odd numbered page. 175 is the first page you will begin marking. Each page will have two marks.
4. Pick up the book from the normal reading position and rotate it one quarter.

**Normal reading position**

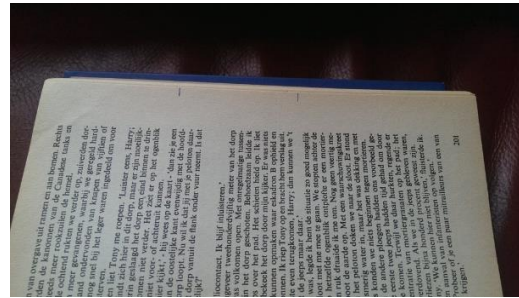

**Rotated one quarter**

5. The book is now positioned right for marking the pages. It must stay in this position during the process of marking the pages for folds.
6. Place the ruler at the top of the left side of the book and begin marking pages. You will mark every other page (all odd pages and all at the top). Measure carefully. It matters.

**First two markings at 7.7 cm and 8.9 cm**

7. The first two markings on the pattern are at 7.7 cm and 8.9 cm. Go ahead and mark them. If you have marked them correctly there is a gap of 1.2 cm between the marks.
8. Go to the next odd page and mark 7.1 cm and 9.6 cm
9. On the third odd page, mark 6.8 cm and 10.1 cm
10. Continue with these values...
