

# CRAFTS TO GO

## DIY Decorate a Bookmark!

### Materials Included:

1 wooden bookmark  
1 charm  
2 options for tassels  
Assortment of scrapbook paper  
Several sticker options

### Materials Needed:

Scissors  
Glue

### Directions:

1. Decide how you'd like to decorate your bookmark. You can use the scrapbook paper and stickers provided, or you can use any materials at home to draw on or paint your bookmark! Mix it up and do something different on each side! Get creative!
2. If you have glued scrapbook paper to your bookmark or painted using materials at home, allow time to dry before adding stickers or moving on to the next step!
3. Choose which tassel you'd like to use and send the loop through the hole of the bookmark. Send the flared end of the tassel through the loop and tighten. Flip the flared end to the other side of the bookmark.
4. Clip the charm to the loop of the tassel to hang with the flared end.
5. Use your new bookmark in the next book you read!
6. Reuse any leftover materials for another fun project of your own!
